NOTICES

GOVERNMENT MOTION

30. *Debated April 3, 4, 5, 9, 10 and 11, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

— an effective means of information about the benefits and risks of immunization and about known contra-indications;

- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing

the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*

45. *Mr Rae* (York South)—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*

46. *Debated April 12, 1990.*

47. *Debated April 12, 1990.*

48. *Mr Kozyra*—Resolution—That, in the opinion of this House, recognizing that there presently exists a program called the Ontario Young Travellers Program which assists students in Northern Ontario with the cost of travelling to Southern Ontario to learn more about their Province and experience and access the resources located in the South, the Government of Ontario should take steps to implement a reciprocal program allowing students in the South to travel to the North so that they also have the opportunity to take advantage of both the human and natural resources available in the North and develop a greater understanding of the diversity of the Province. *April 4, 1990.*
49. *Mr Carrothers*—Resolution—That, in the opinion of this House, since the problems facing society and government are becoming increasingly more complex; and that the most valuable resource that the Ontario Government or any other government has are the people working within it; and that the principles behind the organization and structure of the Ontario Government have not been examined for some time, the Ontario Government should review its structure and its operating and human resource practices with a view to simplifying and restructuring its operations so as to meet the demonstrated needs of its citizenry in a creative, flexible and responsive manner. *April 11, 1990.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 94(d).)

Ballot Item Numbers 41 and 42. *Debated April 12, 1990.*

Ballot Item Number 43. *To be debated Thursday, April 19, 1990.*

Mr Kozyra—Resolution—That, in the opinion of this House, recognizing that there presently exists a program called the Ontario Young Travellers Program which assists students in Northern Ontario with the cost of travelling to Southern Ontario to learn more about their Province and experience and access the resources located in the South, the Government of Ontario should take steps to implement a reciprocal program allowing students in the South to travel to the North so that they also have the opportunity to take advantage of both the human and natural resources available in the North and develop a greater understanding of the diversity of the Province.

Ballot Item Number 45. *To be debated Thursday, April 26, 1990.*

Second Reading Bill 131, An Act to amend the Powers of Attorney Act. *Mr Sterling.*

Ballot Item Number 46. *To be debated Thursday, April 26, 1990.*

Mr Carrothers—Resolution—That, in the opinion of this House, since the problems facing society and government are becoming increasingly more complex; and that the most valuable resource that the Ontario Government or any other government has are the people working within it; and that the principles behind the organization and structure of the Ontario Government have not been examined for some time, the Ontario Government should review its structure and its operating and human resource practices with a view to simplifying and restructuring its operations so as to meet the demonstrated needs of its citizenry in a creative, flexible and responsive manner.

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

— an effective means of information about the benefits and risks of immunization and about known contra-indications;

- an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*
39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing

the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*

48. *Mr Kozyra*—Resolution—That, in the opinion of this House, recognizing that there presently exists a program called the Ontario Young Travellers Program which assists students in Northern Ontario with the cost of travelling to Southern Ontario to learn more about their Province and experience and access the resources located in the South, the Government of Ontario

should take steps to implement a reciprocal program allowing students in the South to travel to the North so that they also have the opportunity to take advantage of both the human and natural resources available in the North and develop a greater understanding of the diversity of the Province. *April 4, 1990.*

49. *Mr Carrothers—Resolution—*That, in the opinion of this House, since the problems facing society and government are becoming increasingly more complex; and that the most valuable resource that the Ontario Government or any other government has are the people working within it; and that the principles behind the organization and structure of the Ontario Government have not been examined for some time, the Ontario Government should review its structure and its operating and human resource practices with a view to simplifying and restructuring its operations so as to meet the demonstrated needs of its citizenry in a creative, flexible and responsive manner. *April 11, 1990.*

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

429. *Mr Runciman*—Enquiry of the Ministry—Would the Minister of Colleges and Universities justify his decision to fund a unilingual French Ph.D. program in psychology in the Northeastern Region of the province and reject the proposal for a bilingual program which would meet the needs of both language groups given the fact that there are no universities in this region offering a bilingual Ph.D. program in psychology and that the bulk of potential candidates in this region speak English. *April 12, 1990.*
430. *Mr Runciman*—Enquiry of the Ministry—Would the Minister of Colleges and Universities explain why the Ministry believes it is not necessary for the government to provide English speaking candidates with equal access to this taxpayer funded unilingual French Ph.D. program in psychology, rather than a bilingual program. *April 12, 1990.*

NOTICES

GOVERNMENT MOTION

30. *Debated April 3, 4, 5, 9, 10, 11, 17 and 18, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:
 - 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. May 15, 1989.
10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords*

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

— an effective means of information about the benefits and risks of immunization and about known contra-indications;

- an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*
39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing

the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*
45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
48. *Mr Kozyra*—Resolution—That, in the opinion of this House, recognizing that there presently exists a program called the Ontario Young Travellers Program which assists students in Northern Ontario with the cost of travelling to Southern Ontario to learn more about their Province and experience and access the resources located in the South, the Government of Ontario

should take steps to implement a reciprocal program allowing students in the South to travel to the North so that they also have the opportunity to take advantage of both the human and natural resources available in the North and develop a greater understanding of the diversity of the Province. *April 4, 1990.*

49. *Mr Carrothers—Resolution—*That, in the opinion of this House, since the problems facing society and government are becoming increasingly more complex; and that the most valuable resource that the Ontario Government or any other government has are the people working within it; and that the principles behind the organization and structure of the Ontario Government have not been examined for some time, the Ontario Government should review its structure and its operating and human resource practices with a view to simplifying and restructuring its operations so as to meet the demonstrated needs of its citizenry in a creative, flexible and responsive manner. *April 11, 1990.*
 50. *Mr Cooke (Windsor-Riverside)—Resolution—*That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

429. *Mr Runciman*—Enquiry of the Ministry—Would the Minister of Colleges and Universities justify his decision to fund a unilingual French Ph.D. program in psychology in the Northeastern Region of the province and reject the proposal for a bilingual program which would meet the needs of both language groups given the fact that there are no universities in this region offering a bilingual Ph.D. program in psychology and that the bulk of potential candidates in this region speak English. *April 12, 1990.*
430. *Mr Runciman*—Enquiry of the Ministry—Would the Minister of Colleges and Universities explain why the Ministry believes it is not necessary for the government to provide English speaking candidates with equal access to this taxpayer funded unilingual French Ph.D. program in psychology, rather than a bilingual program. *April 12, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords

lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

— an effective means of information about the benefits and risks of immunization and about known contra-indications;

- an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*
39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing

the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*
45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
48. *Debated April 19, 1990.*
49. *Mr Carrothers*—Resolution—That, in the opinion of this House, since the problems facing society and government are becoming increasingly more complex; and that the most valuable resource that the Ontario Govern-

ment or any other government has are the people working within it; and that the principles behind the organization and structure of the Ontario Government have not been examined for some time, the Ontario Government should review its structure and its operating and human resource practices with a view to simplifying and restructuring its operations so as to meet the demonstrated needs of its citizenry in a creative, flexible and responsive manner. *April 11, 1990.*

50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*

Second Reading Bill 131, An Act to amend the Powers of Attorney Act. *Mr Sterling.*

Ballot Item Number 46. *To be debated Thursday, April 26, 1990.*

Mr Carrothers—Resolution—That, in the opinion of this House, since the problems facing society and government are becoming increasingly more complex; and that the most valuable resource that the Ontario Government or any other government has are the people working within it; and that the principles behind the organization and structure of the Ontario Government have not been examined for some time, the Ontario Government should review its structure and its operating and human resource practices with a view to simplifying and restructuring its operations so as to meet the demonstrated needs of its citizenry in a creative, flexible and responsive manner.

Ballot Item Number 47. *To be debated Thursday, May 3, 1990.*

Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.

NOTICES

GOVERNMENT MOTIONS

30. *Debated April 3, 4, 5, 9, 10, 11, 17, 18, 19 and 23, 1990.*
31. *Mr Nixon (Brant-Haldimand)—Resolution—That this House approves in general the Budgetary Policy of the Government. April 24, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

- an effective means of information about the benefits and risks of immunization and about known contra-indications;
- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. March 19, 1990.*
40. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. March 19, 1990.*
41. *Mrs Marland—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. March 19, 1990.*
42. *Mr Mackenzie—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/*

constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*
45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
49. *Mr Carrothers*—Resolution—That, in the opinion of this House, since the problems facing society and government are becoming increasingly more

complex; and that the most valuable resource that the Ontario Government or any other government has are the people working within it; and that the principles behind the organization and structure of the Ontario Government have not been examined for some time, the Ontario Government should review its structure and its operating and human resource practices with a view to simplifying and restructuring its operations so as to meet the demonstrated needs of its citizenry in a creative, flexible and responsive manner. *April 11, 1990.*

50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

431. *Mr McLean*—Enquiry of the Ministry—Would the Minister of Tourism and Recreation indicate the three travel agents/agencies with which the Ministry placed by dollar volume and the greatest portion of its travel business during fiscal 1986-87, 1987-88, and 1988-89 indicating the name of the firms in question, their addresses and the value of business placed. *April 23, 1990.*
432. *Mr Rae*—Enquiry of the Ministry—Would the Minister responsible for placing a number of ads in such business magazines as *Fortune* and *Business Week* in March and April 1990 on the competitive advantage of doing business in Ontario advise the House of (1) the total costs of preparation and production of all of these ads; (2) the Ministry or Ministries that provided the funding, and how much each provided; (3) the names and editions of the American publications where these ads were placed and will be placed between now and September 1990; and (4) the cost of placing the ad in each edition of these publications. *April 23, 1990.*
433. *Mr Harris*—Enquiry of the Ministry—Would the Minister of Housing please provide the names and addresses of all consultants, firms or individuals awarded consulting work in the fiscal years 1988-89 and 1989-90, the method by which the award was made, the cost, the duration and a brief description of the work undertaken. *April 24, 1990.*
434. *Mr Harris*—Enquiry of the Ministry—Would the Minister of Housing please detail the cost of Ministry publications, including annual reports, newsletters and/or ministry magazines for the fiscal years 1988-89 and 1989-90; whether these publications were done 'in-house' or contracted out; how many of each document were published; and if contracted out, the cost, name and address of the firm(s) as well as the method by which the award was made. *April 24, 1990.*

NOTICES

GOVERNMENT MOTIONS

30. *Debated April 3, 4, 5, 9, 10, 11, 17, 18, 19 and 23, 1990.*

31. *Debated April 24, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchised*

chise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

- an effective means of information about the benefits and risks of immunization and about known contra-indications;
- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/

constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*

49. *Mr Carrothers*—Resolution—That, in the opinion of this House, since the problems facing society and government are becoming increasingly more

complex; and that the most valuable resource that the Ontario Government or any other government has are the people working within it; and that the principles behind the organization and structure of the Ontario Government have not been examined for some time, the Ontario Government should review its structure and its operating and human resource practices with a view to simplifying and restructuring its operations so as to meet the demonstrated needs of its citizenry in a creative, flexible and responsive manner. *April 11, 1990.*

50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

431. *Mr McLean*—Enquiry of the Ministry—Would the Minister of Tourism and Recreation indicate the three travel agents/agencies with which the Ministry placed by dollar volume and the greatest portion of its travel business during fiscal 1986-87, 1987-88, and 1988-89 indicating the name of the firms in question, their addresses and the value of business placed. *April 23, 1990.*
432. *Mr Rae*—Enquiry of the Ministry—Would the Minister responsible for placing a number of ads in such business magazines as *Fortune* and *Business Week* in March and April 1990 on the competitive advantage of doing business in Ontario advise the House of (1) the total costs of preparation and production of all of these ads; (2) the Ministry or Ministries that provided the funding, and how much each provided; (3) the names and editions of the American publications where these ads were placed and will be placed between now and September 1990; and (4) the cost of placing the ad in each edition of these publications. *April 23, 1990.*
433. *Mr Harris*—Enquiry of the Ministry—Would the Minister of Housing please provide the names and addresses of all consultants, firms or individuals awarded consulting work in the fiscal years 1988-89 and 1989-90, the method by which the award was made, the cost, the duration and a brief description of the work undertaken. *April 24, 1990.*
434. *Mr Harris*—Enquiry of the Ministry—Would the Minister of Housing please detail the cost of Ministry publications, including annual reports, newsletters and/or ministry magazines for the fiscal years 1988-89 and 1989-90; whether these publications were done 'in-house' or contracted out; how many of each document were published; and if contracted out, the cost, name and address of the firm(s) as well as the method by which the award was made. *April 24, 1990.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 94(d).)

Ballot Item Number 45. *To be debated Thursday, April 26, 1990.*

Second Reading Bill 131, An Act to amend the Powers of Attorney Act. *Mr Sterling.*

Ballot Item Number 46. *To be debated Thursday, April 26, 1990.*

Mr Carrothers—Resolution—That, in the opinion of this House, since the problems facing society and government are becoming increasingly more complex; and that the most valuable resource that the Ontario Government or any other government has are the people working within it; and that the principles behind the organization and structure of the Ontario Government have not been examined for some time, the Ontario Government should review its structure and its operating and human resource practices with a view to simplifying and restructuring its operations so as to meet the demonstrated needs of its citizenry in a creative, flexible and responsive manner.

Ballot Item Number 47. *To be debated Thursday, May 3, 1990.*

Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.

GOVERNMENT MOTIONS

30. *Debated April 3, 4, 5, 9, 10, 11, 17, 18, 19 and 23, 1990.*
31. *Debated April 24 and 25, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfran-*

chise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

- an effective means of information about the benefits and risks of immunization and about known contra-indications;
- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier’s Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. March 19, 1990.*
40. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. March 19, 1990.*
41. *Mrs Marland—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. March 19, 1990.*
42. *Mr Mackenzie—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/*

constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*
45. *Mr Rae* (York South)—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
49. *Mr Carrothers*—Resolution—That, in the opinion of this House, since the problems facing society and government are becoming increasingly more

complex; and that the most valuable resource that the Ontario Government or any other government has are the people working within it; and that the principles behind the organization and structure of the Ontario Government have not been examined for some time, the Ontario Government should review its structure and its operating and human resource practices with a view to simplifying and restructuring its operations so as to meet the demonstrated needs of its citizenry in a creative, flexible and responsive manner. *April 11, 1990.*

50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*

SPECIAL DEBATES

OPPOSITION DAYS

2. *Mr Cooke (Windsor-Riverside)*—Opposition Day—That, as a result of the Residential Rent Regulation Act favouring landlords over tenants, the Act's financial loss provisions intentionally rewarding speculative purchases, the Act's capital expenditures provisions intentionally rewarding landlords for undertaking unnecessary renovations thus causing devastating results on the financial security of tenant families in this province, this House calls upon the government to replace the Residential Rent Regulation Act with real rent controls that will allow only one guideline based rent increase per year with no exemptions. *To be debated on Wednesday, May 2, 1990. Minister of Housing.*

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

431. *Mr McLean*—Enquiry of the Ministry—Would the Minister of Tourism and Recreation indicate the three travel agents/agencies with which the Ministry placed by dollar volume and the greatest portion of its travel business during fiscal 1986-87, 1987-88, and 1988-89 indicating the name of the firms in question, their addresses and the value of business placed. *April 23, 1990.*
432. *Mr Rae*—Enquiry of the Ministry—Would the Minister responsible for placing a number of ads in such business magazines as *Fortune* and *Business Week* in March and April 1990 on the competitive advantage of doing business in Ontario advise the House of (1) the total costs of preparation and production of all of these ads; (2) the Ministry or Ministries that provided the funding, and how much each provided; (3) the names and editions of the American publications where these ads were placed and will be placed between now and September 1990; and (4) the cost of placing the ad in each edition of these publications. *April 23, 1990.*
433. *Mr Harris*—Enquiry of the Ministry—Would the Minister of Housing please provide the names and addresses of all consultants, firms or individuals awarded consulting work in the fiscal years 1988-89 and 1989-90, the method by which the award was made, the cost, the duration and a brief description of the work undertaken. *April 24, 1990.*
434. *Mr Harris*—Enquiry of the Ministry—Would the Minister of Housing please detail the cost of Ministry publications, including annual reports, newsletters and/or ministry magazines for the fiscal years 1988-89 and 1989-90; whether these publications were done 'in-house' or contracted out; how many of each document were published; and if contracted out, the cost, name and address of the firm(s) as well as the method by which the award was made. *April 24, 1990.*
435. *Mrs Marland*—Enquiry of the Ministry—Would the Minister of the Environment table a list of the names and addresses of all individuals and companies consulted by the ministry regarding the recent amendments to Regulation 751 of the *Pesticides Act*. *April 26, 1990.*
436. *Mrs Marland*—Enquiry of the Ministry—Would the Minister of the Environment provide a step by step outline, giving dates, of the Ministry's consultation process regarding the recent amendments to Regulation 751 of the *Pesticides Act*. *April 26, 1990.*

NOTICES

GOVERNMENT MOTIONS

30. *Time allocation motion debated April 3, 4, 5, 9, 10, 11, 17, 18, 19, 23, 26 and 27, 1990.*
31. *Budget motion debated April 24, 25 and 26, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

- an effective means of information about the benefits and risks of immunization and about known contra-indications;
- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/

constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*
45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*

50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*

SPECIAL DEBATES

OPPOSITION DAYS

2. *Mr Cooke (Windsor-Riverside)*—Opposition Day—That, as a result of the Residential Rent Regulation Act favouring landlords over tenants, the Act's financial loss provisions intentionally rewarding speculative purchases, the Act's capital expenditures provisions intentionally rewarding landlords for undertaking unnecessary renovations thus causing devastating results on the financial security of tenant families in this province, this House calls upon the government to replace the Residential Rent Regulation Act with real rent controls that will allow only one guideline based rent increase per year with no exemptions. *To be debated on Wednesday, May 2, 1990. Minister of Housing.*

430. *Mr Runciman*—Enquiry of the Ministry—Would the Minister of Colleges and Universities explain why the Ministry believes it is not necessary for the government to provide English speaking candidates with equal access to this taxpayer funded unilingual French Ph.D. program in psychology, rather than a bilingual program. *April 12, 1990.*
431. *Mr McLean*—Enquiry of the Ministry—Would the Minister of Tourism and Recreation indicate the three travel agents/agencies with which the Ministry placed by dollar volume and the greatest portion of its travel business during fiscal 1986-87, 1987-88, and 1988-89 indicating the name of the firms in question, their addresses and the value of business placed. *April 23, 1990.*
432. *Mr Rae*—Enquiry of the Ministry—Would the Minister responsible for placing a number of ads in such business magazines as *Fortune* and *Business Week* in March and April 1990 on the competitive advantage of doing business in Ontario advise the House of (1) the total costs of preparation and production of all of these ads; (2) the Ministry or Ministries that provided the funding, and how much each provided; (3) the names and editions of the American publications where these ads were placed and will be placed between now and September 1990; and (4) the cost of placing the ad in each edition of these publications. *April 23, 1990.*
433. *Mr Harris*—Enquiry of the Ministry—Would the Minister of Housing please provide the names and addresses of all consultants, firms or individuals awarded consulting work in the fiscal years 1988-89 and 1989-90, the method by which the award was made, the cost, the duration and a brief description of the work undertaken. *April 24, 1990.*
434. *Mr Harris*—Enquiry of the Ministry—Would the Minister of Housing please detail the cost of Ministry publications, including annual reports, newsletters and/or ministry magazines for the fiscal years 1988-89 and 1989-90; whether these publications were done 'in-house' or contracted out; how many of each document were published; and if contracted out, the cost, name and address of the firm(s) as well as the method by which the award was made. *April 24, 1990.*
435. *Mrs Marland*—Enquiry of the Ministry—Would the Minister of the Environment table a list of the names and addresses of all individuals and companies consulted by the ministry regarding the recent amendments to Regulation 751 of the *Pesticides Act*. *April 26, 1990.*
436. *Mrs Marland*—Enquiry of the Ministry—Would the Minister of the Environment provide a step by step outline, giving dates, of the Ministry's consultation process regarding the recent amendments to Regulation 751 of the *Pesticides Act*. *April 26, 1990.*

437. *Mr Eves*—Enquiry of the Ministry—Would the Minister of Health indicate the travel agents/agencies with which the Ministry placed by dollar volume during fiscal 1986-87, 1987-88 and 1988-89 indicating the name of the firms in question, their addresses and the value of business placed. *April 30, 1990.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 94(d).)

Ballot Item Numbers 45 and 46. *Debated April 26, 1990.*

Ballot Item Number 47. *To be debated Thursday, May 3, 1990.*

Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.

Ballot Item Number 48. *To be debated Thursday, May 3, 1990.*

Ms Oddie Munro—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present.

NOTICES

GOVERNMENT MOTIONS

30. *Time allocation motion debated April 3, 4, 5, 9, 10, 11, 17, 18, 19, 23, 26 and 27, 1990.*
31. *Budget motion debated April 24, 25, 26 and 30, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the Environmental Protection Act to insure the public's safety from toxic chemicals, as well as his duty under the Freedom of Information and Protection of Privacy Act, 1987 to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. May 15, 1989.

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

- an effective means of information about the benefits and risks of immunization and about known contra-indications;
- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/

constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*
45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal gov-

ernment of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*

SPECIAL DEBATES

OPPOSITION DAYS

2. *Mr Cooke (Windsor-Riverside)*—Opposition Day—That, as a result of the Residential Rent Regulation Act favouring landlords over tenants, the Act's financial loss provisions intentionally rewarding speculative purchases, the Act's capital expenditures provisions intentionally rewarding landlords for undertaking unnecessary renovations thus causing devastating results on the financial security of tenant families in this province, this House calls upon the government to replace the Residential Rent Regulation Act with real rent controls that will allow only one guideline based rent increase per year with no exemptions. *To be debated on Wednesday, May 2, 1990. Minister of Housing.*

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

435. *Mrs Marland*—Enquiry of the Ministry—Would the Minister of the Environment table a list of the names and addresses of all individuals and companies consulted by the ministry regarding the recent amendments to Regulation 751 of the *Pesticides Act*. *April 26, 1990.*
436. *Mrs Marland*—Enquiry of the Ministry—Would the Minister of the Environment provide a step by step outline, giving dates, of the Ministry's consultation process regarding the recent amendments to Regulation 751 of the *Pesticides Act*. *April 26, 1990.*
437. *Mr Eves*—Enquiry of the Ministry—Would the Minister of Health indicate the travel agents/agencies with which the Ministry placed by dollar volume during fiscal 1986-87, 1987-88 and 1988-89 indicating the name of the firms in question, their addresses and the value of business placed. *April 30, 1990.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 94(d).)

Ballot Item Number 47. *To be debated Thursday, May 3, 1990.*

Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.

Ballot Item Number 48. *To be debated Thursday, May 3, 1990.*

Ms Oddie Munro—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present.

GOVERNMENT MOTIONS

30. *Time allocation motion debated April 3, 4, 5, 9, 10, 11, 17, 18, 19, 23, 26, 27 and May 1, 1990.*
31. *Budget motion debated April 24, 25, 26 and 30, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. May 15, 1989.

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

- an effective means of information about the benefits and risks of immunization and about known contra-indications;
- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris—Resolution—*That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris—Resolution—*That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland—Resolution—*That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie—Resolution—*That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/

constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*
45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal gov-

ernment of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientele; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*

SPECIAL DEBATES

OPPOSITION DAYS

2. *Mr Cooke* (Windsor-Riverside)—Opposition Day—That, as a result of the Residential Rent Regulation Act favouring landlords over tenants, the Act's financial loss provisions intentionally rewarding speculative purchases, the Act's capital expenditures provisions intentionally rewarding landlords for undertaking unnecessary renovations thus causing devastating results on the financial security of tenant families in this province, this House calls upon the government to replace the Residential Rent Regulation Act with real rent controls that will allow only one guideline based rent increase per year with no exemptions. *To be debated today.* Minister of Housing.

GOVERNMENT MOTIONS

30. *Time allocation motion debated April 3, 4, 5, 9, 10, 11, 17, 18, 19, 23, 26, 27 and May 1, 1990.*
31. *Budget motion debated April 24, 25, 26 and 30, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. April 27, 1989.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:

- an effective means of information about the benefits and risks of immunization and about known contra-indications;
- an effective method of parental instruction about how to deal with reactions, should they occur;
- an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/

constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Ms Oddie Munro*—Resolution—That, in the opinion of this House, recognizing that the current practice of the construction industry regarding the provision of sanitary and toilet facilities for construction workers is outdated, the Ministry of Labour should make appropriate amendments to Regulation 691 of R.R.O. 1980 under the *Occupational Health and Safety Act* to upgrade the minimum requirements for sanitary and toilet facilities on construction sites, and in particular should amend the regulations to require employers to provide flush toilets and hand-washing facilities (including soap and running water) at all construction sites and to provide separate facilities for each sex at sites where male and female workers are present. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*

50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal govern-

ernment of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*

51. *Mr Daigeler*—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the law, peace and security of its citizens, but also addresses the root causes of crime. *May 3, 1990.*

GOVERNMENT MOTIONS

30. *Time allocation motion debated April 3, 4, 5, 9, 10, 11, 17, 18, 19, 23, 26, 27; May 1 and 3, 1990.*
31. *Budget motion debated April 24, 25, 26 and 30, 1990.*

PRIVATE MEMBERS' MOTIONS

1. *Debated May 3, 1990.*
2. *Ms Bryden—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. April 27, 1989.*
8. *Mr Brandt—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.*

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;

- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded

from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

43. *Debated May 3, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*

50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientele; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*

51. *Mr Daigeler*—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of

public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the law, peace and security of its citizens, but also addresses the root causes of crime. *May 3, 1990.*

NOTICES

GOVERNMENT MOTIONS

30. *Time allocation motion debated April 3, 4, 5, 9, 10, 11, 17, 18, 19, 23, 26, 27; May 1, 3 and 7, 1990.*
31. *Budget motion debated April 24, 25, 26 and 30, 1990.*

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;

- a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. March 19, 1990.*
40. *Mr Harris—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. March 19, 1990.*
41. *Mrs Marland—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. March 19, 1990.*
42. *Mr Mackenzie—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded*

from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientele; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
51. *Mr Daigeler*—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the

law, peace and security of its citizens, but also addresses the root causes of crime. *May 3, 1990.*

GOVERNMENT MOTIONS

30. *Time allocation motion debated April 3, 4, 5, 9, 10, 11, 17, 18, 19, 23, 26, 27; May 1, 3, 7 and 8, 1990.*
31. *Budget motion debated April 24, 25, 26 and 30, 1990.*

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;

— a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded

from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
51. *Mr Daigeler*—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the

law, peace and security of its citizens, but also addresses the root causes of crime. *May 3, 1990.*

SPECIAL DEBATES

OPPOSITION DAYS

3. *Mr Rae* (York South)—Opposition Day—That, in the opinion of this House, the Legislative Assembly of Ontario recognizes and affirms that:

- this House supports the French Language Service Act;
- in the context of our shared belief that linguistic duality is a fundamental characteristic of our country, takes pride in the fact that access for the French-speaking minority in Ontario to the courts, education, public broadcasting, proceedings of the Legislature and provincial services in designated areas has been a shared commitment of different political parties and governments over many years;
- the French Language Services Act applies only to the provision of provincial government services to members of the public, and can be achieved without diminishing services for the English-speaking majority;
- the decision of a municipality to provide municipal services in both English and French is entirely voluntary, and
- through public hearings after the spring session, the Select Committee on the Constitution should in its work seek the views of Ontarians and others on matters relating to the relationship between English-speaking and French-speaking Canadians in Ontario, including services and education. *To be debated Tuesday May 15, 1990. Premier of Ontario.*

- M. Rae* (York South)—jour réservé à l'opposition—Que, de l'avis de cette Chambre, l'Assemblée législative reconnaît et affirme que :

- elle appuie la Loi sur les services en français;
- témoignant de notre conviction commune à l'effet que la dualité linguistique constitue une caractéristique fondamentale de notre pays, se félicite de ce que la minorité francophone ait accès à des services en français devant les tribunaux, dans les écoles, au niveau de la radio-diffusion publique, au sein de l'Assemblée législative et à d'autres services provinciaux dans les régions désignées ce qui a traduit l'engagement des trois partis politiques et des différents gouvernements au cours des ans;
- la Loi sur les services en français ne s'applique qu'aux services offerts par le gouvernement au public et ne diminue en rien les services offerts à la majorité anglophone;
- qu'aucune municipalité n'est tenue de fournir des services municipaux en anglais et en français à moins d'une décision prise par ladite municipalité et;

- lors de ses audiences publiques qu'il tiendra après la session parlementaire du printemps, le Comité spécial sur la Constitution devrait inviter les Ontariennes et les Ontariens ainsi que les autres intéressés à venir exprimer leurs opinions sur les questions touchant les relations entre anglophones et francophones en Ontario, y compris dans le domaine des services et de l'éducation. *Le débat se tiendra le 15 mai 1990*—le premier ministre de l'Ontario.

NOTICES

GOVERNMENT MOTIONS

30. *Time allocation motion debated April 3, 4, 5, 9, 10, 11, 17, 18, 19, 23, 26, 27; May 1, 3, 7, 8 and 9, 1990.*
31. *Budget motion debated April 24, 25, 26 and 30, 1990.*

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*
24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;

— a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded

from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae (York South)*—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke (Windsor-Riverside)*—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientele; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
51. *Mr Daigeler*—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the

law, peace and security of its citizens, but also addresses the root causes of crime. *May 3, 1990.*

SPECIAL DEBATES

OPPOSITION DAYS

3. *Mr Rae* (York South)—Opposition Day—That, in the opinion of this House, the Legislative Assembly of Ontario recognizes and affirms that:

- this House supports the French Language Service Act;
- in the context of our shared belief that linguistic duality is a fundamental characteristic of our country, takes pride in the fact that access for the French-speaking minority in Ontario to the courts, education, public broadcasting, proceedings of the Legislature and provincial services in designated areas has been a shared commitment of different political parties and governments over many years;
- the French Language Services Act applies only to the provision of provincial government services to members of the public, and can be achieved without diminishing services for the English-speaking majority;
- the decision of a municipality to provide municipal services in both English and French is entirely voluntary, and
- through public hearings after the spring session, the Select Committee on the Constitution should in its work seek the views of Ontarians and others on matters relating to the relationship between English-speaking and French-speaking Canadians in Ontario, including services and education. *To be debated Tuesday May 15, 1990.* Premier of Ontario.

M. Rae (York South)—jour réservé à l'opposition—Que, de l'avis de cette Chambre, l'Assemblée législative reconnaît et affirme que :

- elle appuie la Loi sur les services en français;
- témoignant de notre conviction commune à l'effet que la dualité linguistique constitue une caractéristique fondamentale de notre pays, se félicite de ce que la minorité francophone ait accès à des services en français devant les tribunaux, dans les écoles, au niveau de la radio-diffusion publique, au sein de l'Assemblée législative et à d'autres services provinciaux dans les régions désignées ce qui a traduit l'engagement des trois partis politiques et des différents gouvernements au cours des ans;
- la Loi sur les services en français ne s'applique qu'aux services offerts par le gouvernement au public et ne diminue en rien les services offerts à la majorité anglophone;
- qu'aucune municipalité n'est tenue de fournir des services municipaux en anglais et en français à moins d'une décision prise par ladite municipalité et;

- lors de ses audiences publiques qu'il tiendra après la session parlementaire du printemps, le Comité spécial sur la Constitution devrait inviter les Ontariennes et les Ontariens ainsi que les autres intéressés à venir exprimer leurs opinions sur les questions touchant les relations entre anglophones et francophones en Ontario, y compris dans le domaine des services et de l'éducation. *Le débat se tiendra le 15 mai 1990*—le premier ministre de l'Ontario.

GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*
-

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of

life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and

cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae* (York South)—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
 50. *Mr Cooke* (Windsor-Riverside)—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientele; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
 51. *Mr Daigeler*—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the law, peace and security of its citizens, but also addresses the root causes of crime. *May 3, 1990.*

SPECIAL DEBATES

OPPOSITION DAYS

3. *Mr Rae* (York South)—Opposition Day—That, in the opinion of this House, the Legislative Assembly of Ontario recognizes and affirms that:

- this House supports the French Language Services Act;
- in the context of our shared belief that linguistic duality is a fundamental characteristic of our country, takes pride in the fact that access for the French-speaking minority in Ontario to the courts, education, public broadcasting, proceedings of the Legislature and provincial services in designated areas has been a shared commitment of different political parties and governments over many years;
- the French Language Services Act applies only to the provision of provincial government services to members of the public, and can be achieved without diminishing services for the English-speaking majority;
- the decision of a municipality to provide municipal services in both English and French is entirely voluntary, and
- through public hearings after the spring session, the Select Committee on the Constitution should in its work seek the views of Ontarians and others on matters relating to the relationship between English-speaking and French-speaking Canadians in Ontario, including services and education. *To be debated Tuesday May 15, 1990. Premier of Ontario.*

- M. Rae* (York South)—jour réservé à l'opposition—Que, de l'avis de cette Chambre, l'Assemblée législative reconnaît et affirme que :

- elle appuie la Loi sur les services en français;
- témoignant de notre conviction commune à l'effet que la dualité linguistique constitue une caractéristique fondamentale de notre pays, se félicite de ce que la minorité francophone ait accès à des services en français devant les tribunaux, dans les écoles, au niveau de la radio-diffusion publique, au sein de l'Assemblée législative et à d'autres services provinciaux dans les régions désignées ce qui a traduit l'engagement des trois partis politiques et des différents gouvernements au cours des ans;
- la Loi sur les services en français ne s'applique qu'aux services offerts par le gouvernement au public et ne diminue en rien les services offerts à la majorité anglophone;
- qu'aucune municipalité n'est tenue de fournir des services municipaux en anglais et en français à moins d'une décision prise par ladite municipalité et;

- lors de ses audiences publiques qu'il tiendra après la session parlementaire du printemps, le Comité spécial sur la Constitution devrait inviter les Ontariennes et les Ontariens ainsi que les autres intéressés à venir exprimer leurs opinions sur les questions touchant les relations entre anglophones et francophones en Ontario, y compris dans le domaine des services et de l'éducation. *Le débat se tiendra le 15 mai 1990*—le premier ministre de l'Ontario.

NOTICES

GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*
-

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of

life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and

cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae* (York South)—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke* (Windsor-Riverside)—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
51. *Mr Daigeler*—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the law, peace and security of its citizens, but also addresses the root causes of crime. *May 3, 1990.*
52. *Mr Miclash*—Resolution—That, in the opinion of this House, recognizing, that fully accessible, quality health care for every Ontarian is a priority of

this Government and that Northern Ontario residents often have to travel outside their communities to receive specialized health care services and that travel costs in Northern Ontario are higher on average than in other areas of the province and that some situations, regardless of age, require the assistance of a travel companion, the Government of Ontario should reduce the distance criteria under the Northern Travel Grant Program from 250 km to 200 km and that any individual requiring the assistance of a travel companion regardless of their age be eligible to receive a grant to cover their companion's costs. *May 16, 1990.*

NOTICES

GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*
-

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of

life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and

cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae* (York South)—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke* (Windsor-Riverside)—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientel; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
51. *Mr Daigeler*—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the law, peace and security of its citizens, but also addresses the root causes of crime. *May 3, 1990.*
52. *Mr Miclash*—Resolution—That, in the opinion of this House, recognizing, that fully accessible, quality health care for every Ontarian is a priority of

this Government and that Northern Ontario residents often have to travel outside their communities to receive specialized health care services and that travel costs in Northern Ontario are higher on average than in other areas of the province and that some situations, regardless of age, require the assistance of a travel companion, the Government of Ontario should reduce the distance criteria under the Northern Travel Grant Program from 250 km to 200 km and that any individual requiring the assistance of a travel companion regardless of their age be eligible to receive a grant to cover their companion's costs. *May 16, 1990.*

53. *Mr Morin-Strom*—Resolution—That, in the opinion of this House, recognizing that municipal solid waste should be reduced as much as possible so as to eliminate the need for more landfill sites, and recognizing that each region of the province should solve its own waste problems, the Government of Ontario should adopt a policy that no municipal or other garbage from southern Ontario should be shipped to any location in northern Ontario for treatment or disposal. *May 17, 1990.*

NOTICES

GOVERNMENT MOTIONS

31. *Budget motion debated April 24, 25, 26 and 30, 1990.*

PRIVATE MEMBERS' MOTIONS

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
23. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing the shortage of acute care beds which is in part due to the use of these beds by chronic care patients and recognizing the added cost to the system as a result of this misuse of acute care beds and recognizing the higher quality of

life afforded to patients who can stay in their own homes and the added efficiency in the system as a result of home care; the government of Ontario should establish and maintain a system of community palliative care services which would allow people to be cared for in their own homes or in hospices where the atmosphere allows basic human dignity to be the top priority. *July 25, 1989.*

24. *Mr Eves*—Resolution—That, in the opinion of this House, recognizing that Naturopathists have a body of knowledge on which the practice of naturopathy is based and recognizing the risk associated with an unlicensed person practicing naturopathy; the government of Ontario, recognizing the best interests of the public, should continue to legislate the regulation of Naturopathy. *July 25, 1989.*
28. *Mr Cousens*—Resolution—That in the opinion of this House, recognizing that all sittings of the District and Provincial Courts within the Judicial District of York Region take place in Newmarket; and that considerable time, expense and inconvenience is incurred by residents of the Town of Markham and South York Region since numerous matters are heard in Provincial Offences Court on an ongoing basis; the Attorney General should take immediate steps to have a regular sitting of the Provincial Offences Court and the Provincial Court (Criminal Division) at a location in the Town of Markham. *October 16, 1989.*
35. *Mr Runciman*—Resolution—That, in the opinion of this House, a Canadian-style Triple “E” Federal Senate (elected, regionally equal and effective) should be created and in the event that such a Senate is not implemented by Constitutional Agreement, the Government of Ontario should hold elections, in conjunction with the 1991 Municipal Elections, to choose people to fill present and future Ontario vacancies in the Senate. *November 27, 1989.*
37. *Mr McGuigan*—Resolution—That in the opinion of this House, the Standing Committee on Social Development should be asked to review the current state of regulations relating to required and recommended vaccinations of children in the Province of Ontario and in particular, in conjunction with vaccine-injuries in Ontario, the Committee should consider and recommend:
 - an effective means of information about the benefits and risks of immunization and about known contra-indications;
 - an effective method of parental instruction about how to deal with reactions, should they occur;
 - an effective reporting system of adverse reactions in order to reduce the likelihood that children will receive contra-indicated inoculations;
 - a general assurance that recipients of government sponsored immunizations, who experienced a serious adverse reaction, will be provided with compensation without the need to establish liability based on the elusive tort theory. *December 20, 1989.*

39. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing the need to protect and enhance the environment; the Government of Ontario should not offer any grants or loans for private sector projects not utilizing the best available environmental technology, and further, grant and loan criteria—specifically the Premier's Technology fund—should be amended by the Government of Ontario to give priority to projects developing environmental technology. *March 19, 1990.*
40. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that everyone has the right to life, liberty and security of the person, and the right not to be deprived thereof except in accordance with the principles of fundamental justice; the Government of Ontario should petition the Government of Canada to add the fundamental right of enjoyment of property to the Canadian Charter of Rights. *March 19, 1990.*
41. *Mrs Marland*—Resolution—That, in the opinion of this House, recognizing that the Province of Ontario has imposed a special tax of \$5 (plus a 40-cent retail sales tax) on every new tire sold in Ontario, and recognizing that used tires take up much needed space in existing landfill sites, the government should establish used tire depots in various regions of Ontario where used tires would be collected and shredded for recycling, and further that the cost of developing and operating these sites be paid for from the revenues collected from the above-noted taxes. *March 19, 1990.*
42. *Mr Mackenzie*—Resolution—That, in the opinion of this House, recognizing the current Regulations covering hygiene on construction sites are outdated and in need of amendment; that requirements for the provision of toilet and washroom facilities should be fully reflected in the Regulations of the Occupational Health and Safety Act (Sections 89/90); and that the requirements should be both practical and workable, result in the improvement of jobsite working conditions, and hence improve productivity on construction jobsites in the province. 1. The owner/constructor/project manager shall provide toilet and washing facilities on all construction sites in accordance with the following: a) where there are 15 or more workers on a project for a minimum period of one month the facilities shall include one flush (non-chemical) toilet and one urinal and one basin; and b) for each additional 30 workers or part thereof, an additional flush toilet, urinal and wash basin shall be added to facilities. 2. The costs borne by the owner/constructor/project manager in meeting the responsibilities of sections 89 & 90 cannot be transferred to other subcontractors/forces on the project. 3. The owner/constructor/project manager shall have the option of providing the necessary facilities via access to facilities existing or adjacent to the worksite; via temporary fixed facilities constructed on the site; or via mobile units; conditional on site services being available. 4. On high-rise projects, the necessary facilities shall be made available on every fourth floor. 5. The toilet facilities provided shall be equipped as follows: a) within easy access of work sites, b) built so that the occupant is shielded from view, and protected from weather and falling objects. c) provided with natural or artificial lighting. d) provided with sufficient toilet paper and disinfectant. e) kept in a clean and sanitary condition. f) supplied with toilet seats and covers. g) heated to a minimum of 18 degrees C. h) suitably ventilated. 6. Basins provided shall have as a minimum standard a) hot and

cold running water. b) soap or hand cleaner. c) hand towels. 90 1.a). Where WHMIS-class products are present on the jobsite, washing facilities meeting the requirements of the applicable material safety data sheets shall be provided. b). If showers (with the exception of safety showers) are required, they shall have as a minimum standard a) hot and cold running water. b) soap or hand cleaner. c) paper towels or individual hand towels. *March 21, 1990.*

45. *Mr Rae* (York South)—Resolution—That, in the opinion of this House, recognizing that unequal opportunity for employment and promotion exists in the province of Ontario for women, members of visible minority groups, native persons and people with disabilities, and recognizing that voluntary efforts to increase the representation of employable persons with such characteristics by employers have profoundly failed in both the private and public sectors of employment in Ontario, and recognizing that the only remedy to such an inequitable situation in Ontario is the introduction of a legislated mandatory employment equity program with enforceable goals and timetables, in both the private and public sectors, and with an emphasis on removing existing barriers to employment and promotion through the provision by government of such important and necessary services as job training, and child care, all parties in Ontario should join together to secure the enactment in the current legislative session of such employment equity legislation for Ontario. *March 22, 1990.*
50. *Mr Cooke* (Windsor-Riverside)—Resolution—That, in the opinion of this House, recognizing that Canada Post, with the sanction of the federal government of Canada, has undertaken to close 5,221 rural post offices by 1996 and has already closed 175 post offices in spite of massive opposition from individual Canadians and organizations such as the Canadian Municipalities' Association and several provincial governments, and recognizing that closing or privatization of the rural post office undermines over eight decades of uninterrupted service to thousands of Ontarians who live in rural areas, the Government of Ontario should express its dissatisfaction to the federal government of Canada and Canada Post for its present action and strongly urges Canada Post to cease this demise of a system that has well served its rural clientele; and, further that Canada Post return to providing and encouraging the already proven system of existing post offices that will continue to link rural customers with a reliable and cost effective communications system. *April 19, 1990.*
51. *Mr Daigeler*—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the law, peace and security of its citizens, but also addresses the root causes of crime. *May 3, 1990.*
52. *Mr Miclash*—Resolution—That, in the opinion of this House, recognizing, that fully accessible, quality health care for every Ontarian is a priority of

this Government and that Northern Ontario residents often have to travel outside their communities to receive specialized health care services and that travel costs in Northern Ontario are higher on average than in other areas of the province and that some situations, regardless of age, require the assistance of a travel companion, the Government of Ontario should reduce the distance criteria under the Northern Travel Grant Program from 250 km to 200 km and that any individual requiring the assistance of a travel companion regardless of their age be eligible to receive a grant to cover their companion's costs. *May 16, 1990.*

53. *Mr Morin-Strom—Resolution—*That, in the opinion of this House, recognizing that municipal solid waste should be reduced as much as possible so as to eliminate the need for more landfill sites, and recognizing that each region of the province should solve its own waste problems, the Government of Ontario should adopt a policy that no municipal or other garbage from southern Ontario should be shipped to any location in northern Ontario for treatment or disposal. *May 17, 1990.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 94(d).)

Ballot Item Number 50. *Debated May 17, 1990.*

Ballot Item Number 51. *To be debated May 31, 1990.*

Second Reading Bill 166, An Act to amend the Highway Traffic Act. *Mrs Cunningham.*

Ballot Item Number 52. *To be debated May 31, 1990.*

Mr Miclash—Resolution—That, in the opinion of this House, recognizing, that fully accessible, quality health care for every Ontarian is a priority of this Government and that Northern Ontario residents often have to travel outside their communities to receive specialized health care services and that travel costs in Northern Ontario are higher on average than in other areas of the province and that some situations, regardless of age, require the assistance of a travel companion, the Government of Ontario should reduce the distance criteria under the Northern Travel Grant Program from 250 km to 200 km and that any individual requiring the assistance of a travel companion regardless of their age be eligible to receive a grant to cover their companion's costs.

Ballot Item Number 53. *To be debated June 7, 1990.*

Mr Morin-Strom—Resolution—That, in the opinion of this House, recognizing that municipal solid waste should be reduced as much as possible so as to eliminate the need for more landfill sites, and recognizing that each region of the province should solve its own waste problems, the Government of Ontario should adopt a policy that no municipal or other garbage from southern Ontario should be shipped to any location in northern Ontario for treatment or disposal.

Ballot Item Number 54. *To be debated June 7, 1990.*

Mr Daigeler—Resolution—That, in the opinion of this House, recognizing that the Canadian Criminal Justice Association in their 1989 paper on safer Communities has called on the provinces to play a major role in the promotion of crime prevention through social development, the Government of Ontario should accept crime prevention as a significant and integral part of public policy, especially in education, housing, social services and health, and continue to create a social environment that nurtures respect for the law, peace and security of its citizens, but also addresses the root causes of crime.
